To Employees of Terral RiverService, Inc.

As we move through this worldwide pandemic, I remain hopeful of a positive ending for everyone. People across the country are worried that they cannot see an end to the debacle and continue to live every day in fear and uncertainty. Most of our news outlets continue to report ominous information that is being viewed more intently on television and other means due to most Americans are at home and not at their physical place of employment. However, encouraging commentary recently from the President and select media outlets are starting to address moving beyond our fears and focus on getting things back to normal. I believe it is time to move beyond our fears and move forward.

As I have stated before, this company, and the work you do, are essential. Therefore, we will continue to operate on a modified basis. Our target date to transition all operations to our normal schedule is set for Monday, May 4, 2020. Of course, this is subject to Federal and State rules governing businesses and with certain guidelines remaining in place for the safety of all our employees. We will keep you posted of any changes in this plan. Please rest assure, that your safety is our top priority and top concern in navigating Terral RiverService during this time.

Terral RiverService stands with you. If you have any concerns or questions regarding our actions and how it affects you during this coronavirus pandemic, and please feel free in contacting me, the Human Resources department, and/or our management team.

Thomas M. Gattle Jr.  
President and CEO
